The Bible Lands on the Globe

Find the red box: it holds the lands of the Bible. Name the continents and oceans around it.

What to notice

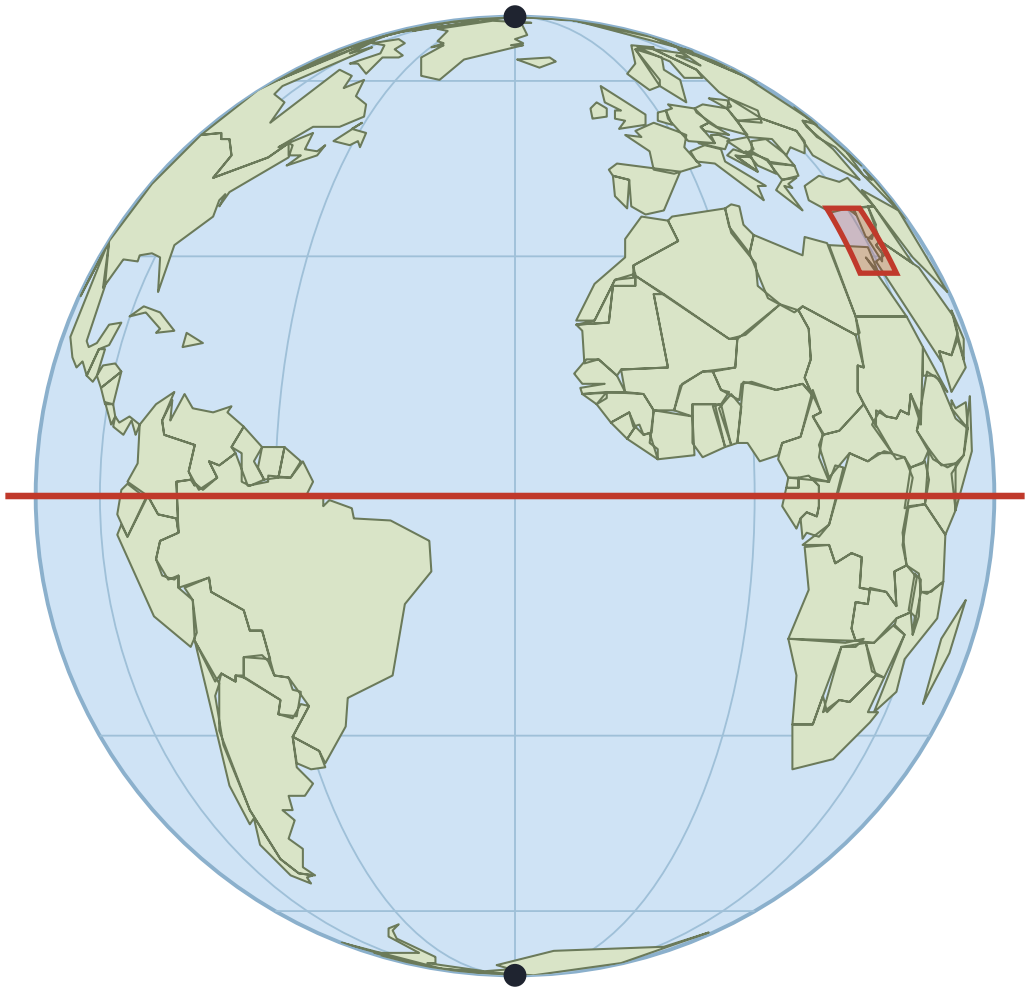

- Look at the red box: it holds Egypt, Canaan, Syria, Asia Minor and Babylon.
- Jerusalem is about 32 degrees north of the equator and 35 degrees east of the line that runs through Greenwich: in the northern half of the world and the eastern half.
- Three continents meet near the red box: Africa, Asia and Europe. The sea between them is the Great Sea, the Mediterranean.

"He sits enthroned above the circle of the earth; its dwellers are like grasshoppers. He stretches out the heavens like a curtain, and spreads them out like a tent to dwell in."
Isaiah 40:22 · BSB

The Bible Lands on the Globe · blank globe

Label the globe, color the land and water, and find the red box.

Name _____ Date _____

Write these names on the globe

the equator · the North Pole · Asia · South America · Europe · North America · Africa · Atlantic Ocean

Color, draw and write

- [ ] Color the land green and the water blue.
- [ ] Draw the equator as a red line around the middle of the globe.
- [ ] Write “Lands of the Bible” beside the red box.
- [ ] Write one thing that happened in the Bible in each continent you can name.
